Remaining Issues Free

NEW subscribers to the Canadian Horticulturist, sending in their subscriptions now will receive the remaining issues of the year free. Sixty cents will pay your subscription to December 1911, or \$1.00 will pay your subscription to December 1912.

The Canadian Horticulturist contains information on Canadian fruit growing, worth many dollars each year to British Columbia fruit men. Articles are published dealing with fruit growing in all parts of Canada. Those dealing with fruit growing in the eastern provinces will be of special interest to western fruit men, as it will enable them to profit from the experience of the older sections.

APPLE GROWING IN ONTARIO

received special attention in our September and October issues. We have on hand a limited number of copies of these two numbers, which will be sent free to new subscribers asking for them.

REAL ESTATE MEN having improved or unimproved fruit lands in British Columbia for sale, will find The Canadian Horticulturist a good advertising medium through which to reach interested persons in Eastern Canada. Write for advertising rates.

Fruit Lands

Upper Okanagan

Upper Okanagan Grapes

A mild and even climate, sufficient rainfall, and the very best of soil makes the Okanagan the finest fruit growing section on earth.

Its fruit on account of its superior color and quality commands the highest prices in the best markets of the world.

These things make fruit growing in this section highly profitable. Results show \$500.00 to \$600.00 per acre from matured orchards.

Is this not a great inducement to make money pleasantly under most ideal conditions?

Carlin Orchards

is the choicest tract of land in the Upper Okanagan.

Ideal location, fronting on the Okanagan Branch of the C. P. R. and the Shuswap River.

The soil, being silt deposit and loam, is highly productive.

Ten acres of this land in selected fruit trees will produce more wealth than a quarter section of wheat land.

To induce immediate settlement the owners, a Colonization Company, offer 10 and 20-acre blocks at a price that can never be duplicated in the Okanagan.

Terms are so arranged that the land can be made to pay for itself.

Price, \$110 to \$125 per acre

Land ready for planting, \$145 per acre

One quarter cash, balance 1, 2 and 3 years

This is undoubtedly the greatest opportunity ever offered to secure money-making fruit lands in British Columbia. It will pay you to investigate.

We will be glad to furnish illustrated information that is absolutely reliable.

Saturday sunset

IN the Anglo Saxon world today political insurgency is rampant. Men with red blood in their veins have broken the shackles of party and stand simply and purely for good government no matter where it may be found.

¶ The Saturday Sunset is a vital, red blooded, militant force, fighting for the square deal all round, and just because it stands for these things, its straight, clean advertising pages bring the maximum of results.

¶ A paper must have personality to be effective, and the Saturday Sunset has personality plus. You may differ from it, but you read it, so do others, and that is why its advertising per unit of circulation proves doubly effective.

¶ Are you represented in its advertising columns? Let us talk this matter over with you today.

For Shavers—Old and Young

❑ To keep your razor in everyday shaving condition—to get that keen, incisive edge which leaves the face unchafed and "comfy" is impossible with an old-style flat hone. The principal is wrong.

❑ The flat hone thins the blade but turns the edge, sometimes more than others but always some. This is the reason that razor of yours takes cranky fits—is passably good some days and then bad again, but never "best."

❑ Your razor can be "best" every day—**THE SMITH PERFORATED HONE** proves this.

❑ The little perforations are the secret, through this idea you are always certain of an easy shave. The wire-edge is disposed of in contact with the sharp edges of the holes. You can prove this with the most stubborn razor you own.

❑ The **SMITH RAZOR-HONE** is guaranteed, if it does not do what we claim for it your money will be refunded

The Nelson NEWS

and the Kootenay

Q The Kootenay is an empire by itself, as large as England and just as rich in potential wealth. The Kootenay has seen the dawn of the apple growing industry in British Columbia—it will soon be acknowledged as one of the greatest fruit producing sections of the Anglo-Saxon world. □ □ □ □ □ □

The mineral wealth of the Kootenay has barely been touched. It lies open to the hand of capital, ready to yield its largesse with a prodigality hitherto undreamed of. Throughout this empire, stretching from the confines of Alberta half way across the province; from the international boundary northward almost to the C.P.R.

throughout this country one paper is supreme. That paper is the *Nelson News*. You cannot reach the miners, the lumbermen, the fruit growers, the commercial people of this vast area without using the *News*. Its circulation is guaranteed. Its rates are the same to every one. The Farm and Ranch Review

Put it up to the man who knows. That is how to find out the value of an advertising medium. A good product, a reasonable price, with a good medium, means success in advertising.

Read these two stories.

IT SELLS LAND

Farm and Ranch Review,
Calgary, Alta.

October 18th, 1910

Gentlemen:

We have used your medium to advertise our best property, Edgewood Orchards. The results have been quite satisfactory to us. We will no doubt sell a large quantity of this land. The land is extra choice, perhaps that may be the reason of our success, but the Farm and Ranch Review has done its part.

The NEWS

VERNON, BRITISH COLUMBIA

THERE is one paper in the Okanagan that is known from end to end of the valley. No advertising campaign can cover the INTERIOR of British Columbia without it. That paper is the *Vernon News*. The Okanagan is the richest of the rich fruit valleys of the world. A climate which for healthfulness rivals California. A soil as rich as the sun shines on. — A land of wondrous productive wealth—this is Okanagan—and VERNON is its leading BUSINESS CENTRE.

In the Okanagan Apple Country

Life should not be a strenuous struggle for the good things that life affords.

Environment makes contentment. Normal man wants few things that are outside the power of his own strong arm to procure to make him happy.

These things are—suitable climate, productive land, good society, transportation facilities, scenery and opportunity for enjoyment.

Now we believe we have secured these things in a beautiful orchard tract we are putting on sale, known as Edgewood Orchards, in West Kootenay, the home of the perfect apple.

This is the climate of the Edgewood Orchards country:

“Government meteorological statistics show that for a period of three years the highest temperature recorded was 94° Fah. and the lowest 6° below zero. These were respectively for the months of July and February, but the average temperature for these months for the period dealt with

are, for the month of July, 69.03 Fah. and for the month of February 29.39 Fah.

The average annual precipitation of rainfall is 27.91 inches per annum. The average number of days of sunshine per month is 22.8. What an ideal climate—sufficient rainfall, no storms, no prolonged cold weather, no frosts to do injury to crops.

The soil is perfect fruit soil.

The valley is settled by Canadian, American and English people, the pick of the earth.

There is a steady, daily, year-round boat service, and the land is so reasonable in price that almost anyone can afford to have a home here.

In this valley we now offer for sale about 300 lots, averaging 10 acres each. The price runs from \$60 to \$80 an acre.

The terms are as low as \$10 down and \$10 a month.

If a home in the Edgewood Orchards country interests you, use this coupon. The particulars will cost you nothing.

Pacific Monthly

"The Magazine of the West"

brought 1213 inquiries
from three months'
advertising

IT is the people who are already interested in the Pacific Coast who read the Pacific Monthly. They believe in the Pacific Coast; they want to invest their money in the best propositions the Pacific Coast has to offer. Many of them want to come here to live as soon as they can.

Pacific Monthly

"The Magazine of the West"

enables you to do business
with would-be investors. Try it.

This is why the Pacific Monthly gives advertisers such splendid results. One Vancouver advertiser got 1213 inquiries and much business from a three months' campaign.

The WORLD

Canada's Greatest
Advertising
Medium

Some papers boast of circulation, as if that itself was the sole thing of interest to the advertiser.

Some papers talk of quality, but even quality isn't everything in a newspaper.

Now what the advertiser wants to know is: What results can I get from my advertising? And here is where the World leads—leads in Vancouver—leads in the Province—in the whole world as far as that goes. On this alone the World bases its appeal for business—not on what we say; not on what others say, but on the power of the paper to actually produce. Therein lies the strength of the World.

The world knows, acknowledges, and pays tribute to the excellence of British Columbia fruit.

Soil, rich in all the elements required to grow to perfection the fruits that ripen in the northern zone; a climate sunny yet with sufficient moisture; air clear and ozone laden, and men sufficiently intelligent to properly cultivate, prune and care for the great orchards of this great province—these combined produce fruit of matchless superiority.

These fruits with pure sugar form the ingredients of Empress Jams and Jellies. And just as the fruit of British Columbia is without a peer in the known world, so are the Jams and Jellies of the Empress Manufacturing Co. unapproachably superior to those manufactured elsewhere.

Isn't this logical?

Isn't it natural?

But better still, it is absolutely true.

**—you know the immense

—If you knew you could buy a five-acre tract that would produce the best possible commercial apples—

—If you knew that while you were attending to your daily business in Vancouver or New York—this 5 acre tract of yours would be properly planted and cared for by experts—the water supply carefully watched—the trees pruned and sprayed—

wouldn't you like that proposition for an investment? Well, you can buy a 5 acre farm—one of the

Basque Fruit Farms

Situated on the Thompson River, 1 mile from the Canadian Pacific Railway, right on the Canadian Northern line, 6 miles from Ashcroft and 200 miles from Vancouver.

These farms have been growing apples for 25 years—the large, juicy, delicious kind that bring the highest prices.

The price is \$375.00 an acre, ready for planting. You can buy one of these farms on very easy payments.

Soil is volcanic ash 3 to 15 feet in depth, with gravel strata underlying. Exactly the same as the \$1000 acre land at Wenatchee, Washington.

The climate at Basque is delightful, the scenery magnificent. A little bungalow on your farm would make it a lovely spot for your family in summer.

The Fruit Magazine

In all Canada there is just one magazine entirely devoted to the fruit industry—that is The Fruit Magazine—Head Office, Vancouver, B. C.

It is national in its scope and world-wide in its sympathy and influence.

It treats the larger questions of the great industry in a broad and comprehensive way.

No man who appreciates the future of the business he is engaged in should be without it.

No advertiser desiring to be in touch with the real wealth producers of one of the greatest industries in Canada, or who wants to reach the dealers in and consumers of fruit, should fail to use The Fruit Magazine.

Sample copies free. Present circulation over 10,000 copies.

Advertising rates on application.

Perfect fruit can only come from perfect trees

And ever since its foundation the Capital City Nursery Company of Salem, Ore., has had for its motto :

**Superior high-grade
stock, not one shipment
but every shipment.**

This is what gives the nursery its enormous business.

All stock true to name guarantee non-irrigated stock, Willamette Valley grown, perfectly hardy and thoroughly reliable in every way.

GROW WALNUTS they are enormously profitable and easily grown.

Trees bear in from four to six years.

We are the sole growers of the Franchette Walnut (Vrooman Strain), the most productive and rapid growing walnut known.

Just a word in conclusion: The show has been very good, hasn't it?

The advertising in this programme has been very interesting. Every man who advertises has a message for you—a message worth reading—read it.

As for your own advertising—the advertising you buy and pay for—well, why not have the services of men who make a business of advertising? Did you ever think of that? Come in and talk it over.
